S48 Report

Key to judgements: Grade 1 is outstanding, grade 2 good, grade 3 requires improvement and grade 4 inadequate	Judgement
OUTCOMES FOR PUPILS	2
<p>The outcomes for pupils are good with many outstanding features. The inspectors spoke to the members of School Council, who were able to express their own views and beliefs with confidence. They are beginning to take on responsibility in developing the Catholic Life of the school beyond the classroom. An example of this is the work they did in highlighting the evils of bullying and the enthusiasm they expressed in seeking ways to support those less fortunate than themselves. The pupils recognise that there has been a significant improvement in pupil behaviour, they feel safe and are confident that bullying will not be tolerated.</p> <p>All pupils were fully involved in creating the new school Mission Statement which is featured around the school. The contributions of pupils are all valued and displayed in their Mission Statement books. When asked the purpose of the Mission Statement one pupil replied "it's our goal, it is something we have to achieve."</p> <p>Standards in Religious Education are good and pupils' achievements are evidenced by their work in books and through numerous other activities and events. These are scrutinised by the Leadership Team as part of the annual monitoring procedure, as well as completing lesson observations. This year the school has developed assessment and tracking systems to provide more robust analysis of pupil progress and attainment. These include planned half-termly assessments against identified attainment targets together with assessment against "I Can" statements for all pupils for each strand of the attainment targets. Assessment recording sheets are completed at the end of each topic</p> <p>Pupils help to plan Collective Worship sessions. They are able to do this with increasing independence towards the upper end of Key Stage Two. They have a sense of pride and ownership towards these sessions. 'Stay and Pray' sessions provide lovely opportunities for children, staff and parents to worship together and to develop their faith. These are welcomed by the parents. The introduction of the Angelus across all year groups has been particularly successful. Pupils from early years upwards thoroughly enjoy and engage well in the Angelus through both song and prayer at age appropriate levels.</p>	
LEADERS AND MANAGERS	2
<p>The leaders and governors of the school are fully committed to the Church's mission in education. They have an excellent understanding of the school's strengths and areas for development.</p> <p>The energetic and dedicated Headteacher, appointed two years ago, leads a highly motivated leadership team, which includes the Religious Education subject leader. Together, they strive to inspire and motivate all to ensure that every child has access to the best possible learning opportunities. The staff fully support the ethos of the school and work extremely hard to ensure children have access to good quality lessons.</p> <p>The Religious Education action plan forms an integral part of the school improvement plan and helps to support the vision and direction of the school. This is reviewed and evaluated at every meeting of the full Governing Body.</p> <p>The Governing Body shows its commitment to all aspects of school life by keeping itself fully informed about what is happening in the school and by keeping up to date with changes in legislation and guidance information. The majority of the governors are also parishioners. In discussion with the inspectors, the governors stated that in the last two years there has been a dramatic improvement in the links between the school and the parish, which they believe is a result of the high</p>	

intention and intelligent direction of the Headteacher's leadership.

School leaders have worked hard to improve the provision for Collective Worship and pupils have a much clearer understanding of both liturgy and worship. The school has identified the 'Creative Curriculum' as an area for development for this year and has planned for the appropriate training and resources to be in place to ensure quality provision.

Questionnaires returned by parents show that the vast majority of children enjoy attending the school with ninety eight percent of questionnaires indicating that parents are happy with the values and attitudes that the school teaches. It is clear from the answers given by parents that they fully support the Mission Statement of the school.

PROVISION

2

Teaching observed by the inspectors was effective in enabling pupils to make good progress as learners. Teachers are aware of their pupils' abilities and have a good subject knowledge which challenges most pupils and contributes to their good progress. The pupils value and respond to feedback both orally and through written responses. Lessons observed made effective use of time and all had good pace but differentiation was often limited to outcome. Inspectors saw a range of teaching styles and activities. The school is making good and interesting use of iPads for recording pupils' work and other activities. The use of questioning during lessons, to develop pupils' ideas, was generally good with some outstanding features. However, in some instances, there was an over-reliance on closed or limiting questions.

Collaboration within the cluster of Wallasey Catholic schools has provided opportunities for the sharing of good practice, including moderation and assessment, as well as the development of a shared resource base which is accessed by all schools.

The introduction of Sunday Family Masses on the 1st Sunday of each month and class masses have been particularly successful in encouraging families to become more involved in the Mass, including promoting the involvement of pupils and staff in the Sunday Mass. This has resulted in an increase in families attending Sunday Mass and participation in activities led by the parish outreach team including "Messy Church" and Children's Liturgy.

Changes made to the Sacramental Preparation Programme two years for children and their families have been particularly successful. Families now attend five sessions jointly led by school and Parish Catechists to support their child's preparation for First Forgiveness and Holy Communion. These sessions encourage the involvement of children alongside their parents through reflective and interesting activities and periods of personal reflection. The impact of these activities can be seen in the knowledge shared by the children and their parents, as well as in the very positive feedback received.

The quality of Collective Worship provided by the school is very good. Each classroom has a focal point for a display relating to the current topic. These are all well-presented and many include the pupils' own work. From discussion with pupils it was clear they enjoy and respond to the responsibility of planning and leading Collective Worship and prayer, and value the opportunities provided. They are aware of the importance of prayer and that there are different ways to pray, such as singing, quiet prayer, meditation, praying together in class, as well as their own private prayers. They understand that prayer is important in our relationship with God and how Jesus taught us to pray.

OVERALL EFFECTIVENESS

2

St Joseph's is a good Catholic Primary School with some outstanding features. The school is

committed to providing a high quality Catholic education that enables pupils to achieve a feeling of self-worth and identity. The welcoming environment and care given to displaying the work of pupils demonstrates that pupils are valued and their efforts acknowledged.

The governors and staff are committed to the Catholic mission of the school and excellent relationships exist between staff, pupils, parents and the wider community of the parish.

The governors and leaders shared vision and understanding of the school is evidenced by the clarity and vision of the school's Self Evaluation and School Improvement Plan. These include clear and explicit action points to move provision within the school from good to outstanding.

The school's capacity for sustained improvement is very good.

All the targets from the last inspection have been met.

What the school could do to improve further

- To ensure teaching is consistently highly effective and challenging across all year groups by the development of more open questioning and extending the use of creative learning opportunities in RE.
- To develop the role of Mini Vinnies within the school so that pupils can extend their role in fund-raising and supporting needs within the local community and further strengthen the links with the parish.
